

My community is rural and we do not have access to many radio stations. The fact that we receive a quality, commercial-free station with Christian programming is very important to me and the community. Several students and parents at the school where I work and at the church I attend listen to K-Love regularly. Without K-Love we would not have access to this programming. K-Love gives my community an alternative which is a positive influence on all who listen to it. Thank you for your time.
